SWV 2100 / 3400 & SLV 2100 / 3400 SELF PROPELLED WATER & LAVATORY SERVICE VEHICLE

CHASSIS	The chassis is designed by Timsan, produced by steel profiles and powered by diesel engine with electrically controlled power-shift transmission with torque converter.
TANK	The tanks are made of stainless steel and provided by manholes, filler caps and discharge valves. The top of the tanks are covered with anti slip material or steel grid for safe walking.
CLEAN WATER PUMP	The clean water pump is driven by hydro-motor, which is powered by the diesel engine, to be used to pump the clean water to aircraft's tank.
WASTE WATER COUPLING	The waste water coupling is made of stainless steel and is of quick coupling type. It is equipped with 4" flexible hose.
CLEAN WATER COUPLING	The waste water coupling is made of stainless steel and is of quick coupling type. It is equipped with 1" flexible hose.
HYDRAULIC SYSTEM	The hydraulic system is provided by an oil tank, a pump driven by an engine, hydro-motor, hydraulic valves and some other useful accessories. Emergency hand pump is also used in case of engine failure.
ELECTRICAL SYSTEM	The electrical system is powered by a standard battery of engine. The electrical system is provided by work lamp and the all accessories are controlled from a control panel.
ELEVATING PLATFORM	A hydraulic powered work platform is provided to be used for operator to reach desired elevating height to serve aircraft.
SURFACES	The all parts are custom painted.
OPTIONS	Electrical emergency pump, articulated ladder, different brand of diesel engine and transmission, heating, insulation, vacuum pump, logo application.
