

## KEMPER – for a good feeling!

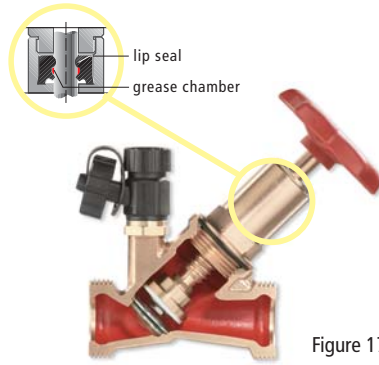

### Safe solutions from KEMPER

- made completely of red brass or stainless steel, resistant to aggressive water
- with DIN/DVGW-, SVGW-, KIWA, ÖVGW- and soundproofing certificate

**KEMPER**

Lip seal

- self-lubricating EPDM lip seal as maintenance-free stem seal
- absolute ease of action over decades

Figure 173

Stop valves

Figure 173

Figure 135

Figure V2

- self-lubricating EPDM lip seal as maintenance-free stem seal
- stainless steel seat with high-grade gasket ring

Protection valves

Figure 158

Figure 145

Figure 360

- for drinking water protection to DIN EN 1717
- reliable, safe and technically perfected

Protection and regulating valves

Figure 710

Figure 712

Figure 713

Figure 714-716

- save water, limit pressure, protect your system
- red brass and stainless steel used for parts in contact with medium

Regulating valves

Figure 141

Figure 131 00

Figure 540 02

- hydraulic balance in circulation systems
- safety, technically perfected solutions to legionnaires prophylaxis

Regulating valves

Figure 150

Figure 138

Figure 187

- hydraulic balance in circulation systems
- safety, technically perfected solutions to legionnaires prophylaxis

Concealed valves

Figure 523

Figure 524

Figure 560

- a broad range with stop, regulating and presetting function
- variation variety regarding material, design, function, installation and means of connection

Stop valve / water meter combinations

Figure 855

Figure 867

Figure 870 07

Figure 857

- quick and safe installation of concealed valves and water meter housing
- right solutions for differently demands

Frost-proof outdoor valves / water and power supply station

Figure 574

Figure 576 02

Figure 210

- absolutely frost-proof the whole year round through automatic drainage
- comfortable water and power supply from a central outdoor location

Stainless steel valves

Figure 073

Figure 052

Figure 041

- a broad range for the high-quality material for stopping, saving and regulating
- completely made of stainless steel, guarantee perfect protection from corrosion in aggressive water

Accessories

- insulation bowls made of PE material, temperature-resistant up to 100 °C
- easy and quick to fit
