Polikarbonat Profilleri

Polycarbonate Profiles

Zengin ürün yelpazemiz ile polikarbonat profilleri, aydınlatma grubumuzu oluşturmaktadır. Müşterilerimizin isteğine göre difüzörlü, şeffaf, uv dayanımlı ya da arzu ettiği renklerde üretimimizi gerçekleştirmekteyiz.

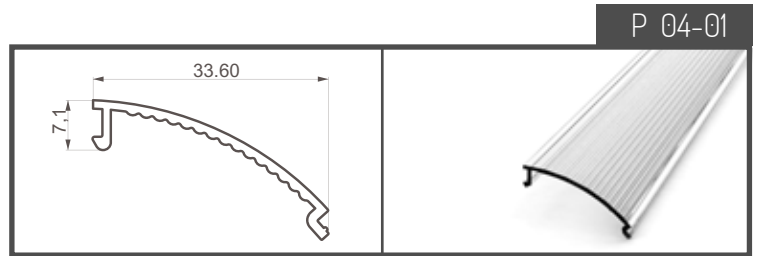

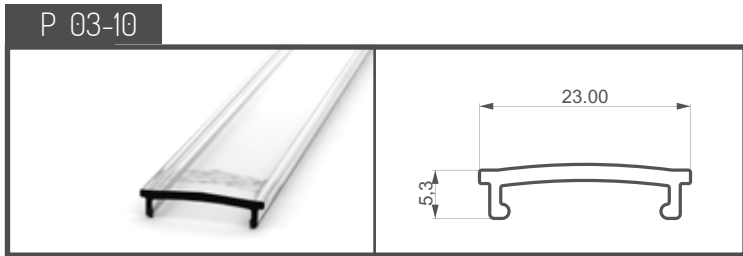

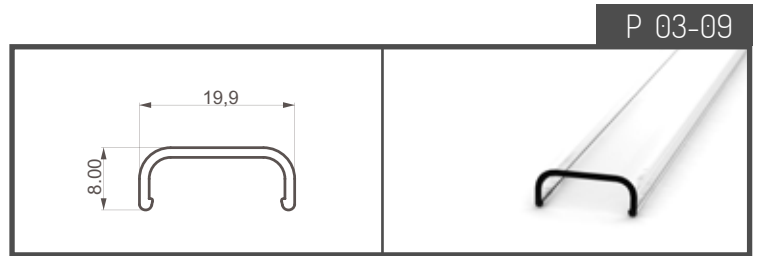

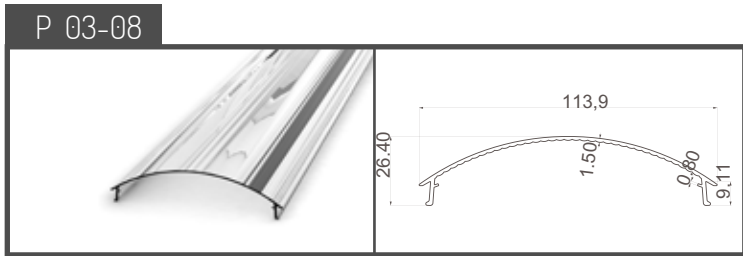

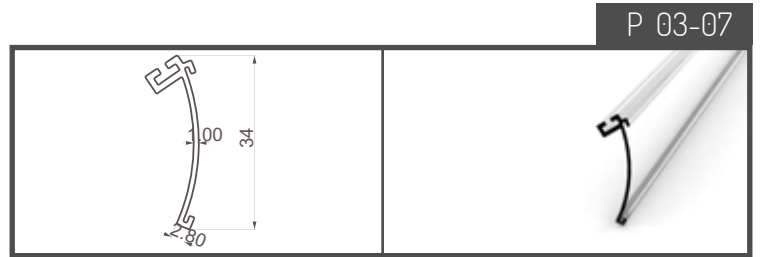

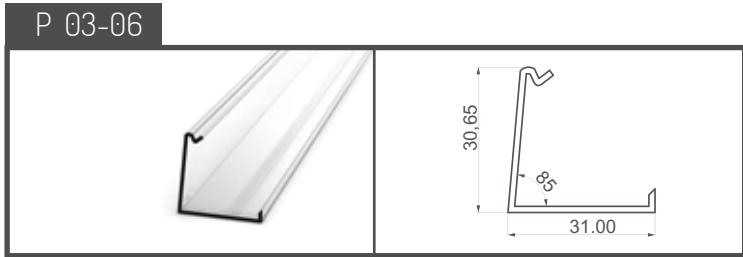

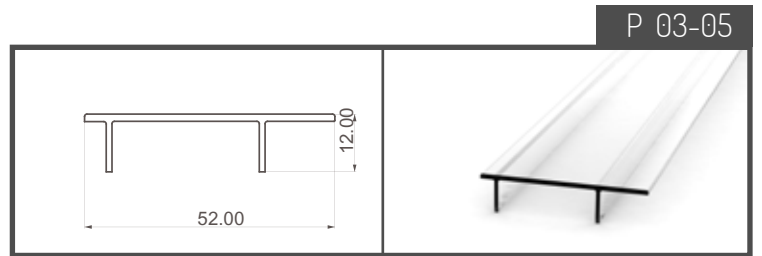

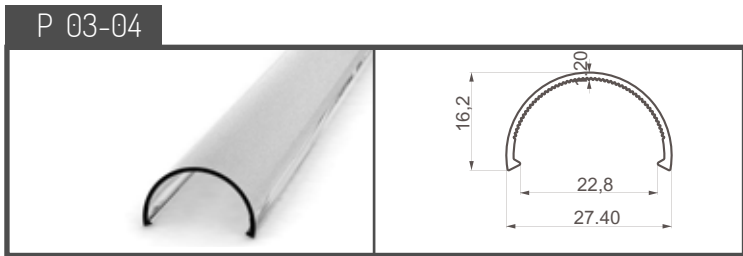

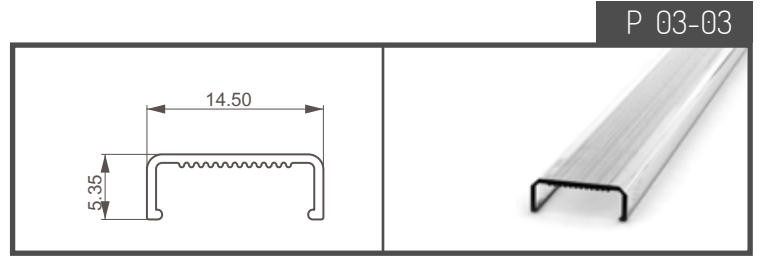

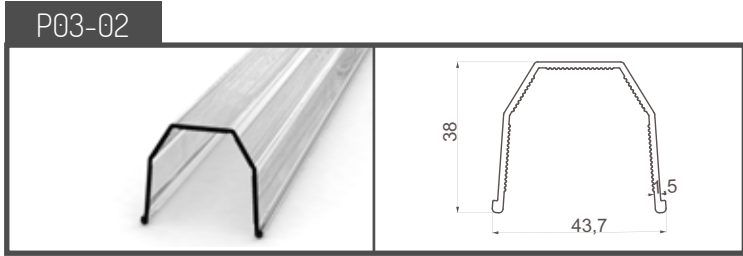

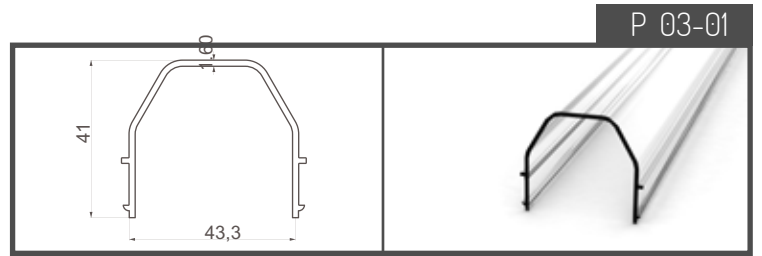

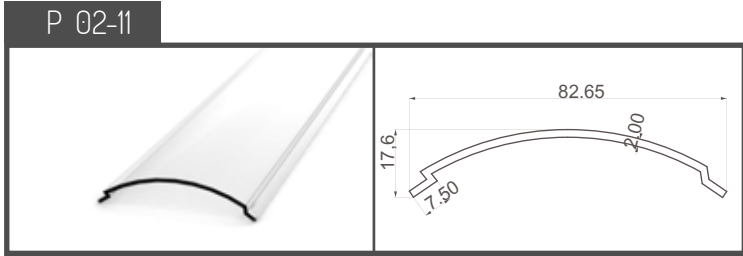

Aydınlatma sistemlerinde kullanılan bu profillerimizin tasarım, üretim ve kontrol aşamalarında göstermiş olduğumuz özene, ölçüsel kontrolün dışında, ışık geçirgenliğini de dikkate alarak müşterilerimize en iyi kaliteyi sunmayı hedefliyoruz. Ürün gamımızı her geçen gün arttırarak daha geniş müşteri portföyüne ulaşmak ilk amacımız.

With the variety of our polycarbonate profiles constitute our lighting group. We manufacture products that are transparent, UV-resistant, with or without diffuser and available in desired colors, according to the requests of our customers.

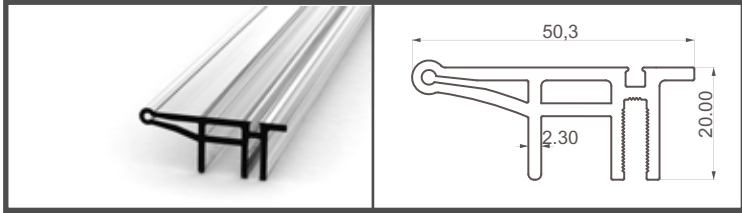

Our objective is to offer the best quality to our customers by taking luminous transmittance as well as measurement control into consideration with the special attention paid to the design, production and control stages of these shapes that are used for lighting systems. Our primary target is to reach a broader customer portfolio by expanding our product range with each passing day.
